

UPLIFT DESK®

LOCKING CASTERS

Use the locking casters if you'll be moving the desk from one work area to another, or if you want some added height to the desk. At a maximum height setting of 50.5", the UPLIFT Desk goes high enough for the vast majority of users. If you're about 6'6" or taller, you may appreciate the extra 2" of height the casters provide. Similarly, you may want some additional height if you'll be adding a treadmill to your desk. Each treadmill is 6" tall, so you'll want to take that into account when considering the best height for your desk while you're walking.

Casters lock into place to prevent desk movement. Simply flip the tabs down when you need to move the desk. You can use the casters on carpeted or hard floors.
