

Goldtouch Gel Filled Wrist Rests

Two hands, two wrists, two wrist rests. This innovative approach allows workers to fit the soft, stress dispersing gel pads to each wrist individually while leaving the center area in front of the keyboard open for other necessary accessories. Finished in smooth lycra, wrist rests are as easy on the skin as they are on the muscles.

FEATURES	MODEL NUMBERS
<ul style="list-style-type: none"> • The Ergonomic Wrist Rests allow you to find the most comfortable position for your hands. • Soft, comforting GEL structure disperses stress — helps you to relax your hand, wrist and arm. • Supports the wrist and helps you attain a neutral wrist posture. • Now you can place frequently used items directly in front of your keyboard. 	<p>GT7-0003 - Blue GT7-0017 - Black</p> <div style="text-align: center;">  <p>Available in Black</p> </div>
