

ErgoSecure 2.0 Smart Card Keyboard

A user-friendly, security solution that is easy to use, easy to implement and provides the enterprise with two levels of protection. Simple to adjust, it permits the user to change the configuration both horizontally and vertically, reducing discomfort for the user.

The ErgoSecure 2.0 utilizes the SCM STC II chip Smart Card reader. This technology is compliant with many crucial existing and emerging banking and IT standards and supports a wide range of e-commerce, authentication, PKI and network security based applications.
