

Standing I feel free

moving gives me energy

I accomplish more

I feel better

my mind is

sharper

my body

more fit

Being able to

sit or stand

when I want

makes the day

more fun

and I still

feel great when

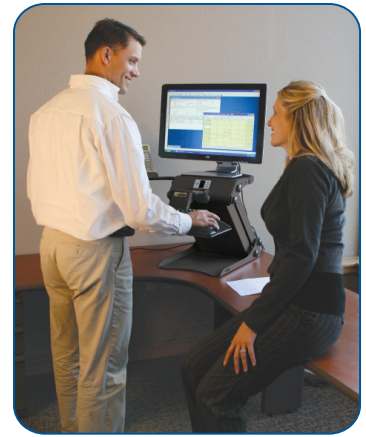

my work is done

Computer
TASKMATE™

With the Computer TaskMate™ it is easy to enjoy the benefits of a healthy sit-stand workstyle.

- Simply place it on your existing desk and plug-in. No need to remodel your office and you can move it to another desk if desired.
- Simply push a button to quickly raise and lower your monitor and keyboard. You can adjust the height and angle of the keyboard independently for the best ergonomic position.

The **6200** comes complete with an all-in-one keyboard tray with mouse pad built in. The durable tray is reversible for right or left hand mouse pad. It comes with cushioned keyboard & mouse wrist pad for added comfort.

The **6202** comes complete with a durable, lightweight tray. The mouse pad swings under the tray and can be moved on the right or left side. A good choice for a small cubicle. It comes with a keyboard wrist pad for added comfort.

The **6204** comes complete less the keyboard and mouse tray. Our adjustable keyboard arm will accommodate any standard mount keyboard tray. This is a good choice if you have a keyboard tray of your own that you desire.

features

- One push button controls the electric actuator that will lift up to 70 lbs
- Keyboard mechanism adjusts keyboard tray 6" below desk surface to meet ergonomic standards
- Non-slip pads under base prevent scratching and velcro attachment keeps the TaskMate secure
