11 Occupancy Sensor

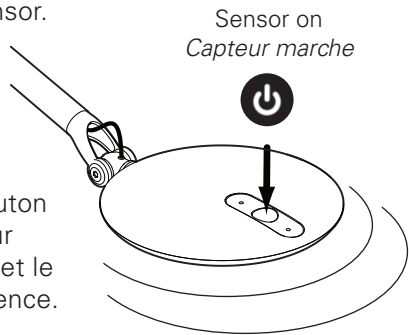

Element Disc has an occupancy sensor that automatically turns the unit off when it does not detect motion in the immediate area for ten (10) minutes.

Détecteur de Présence

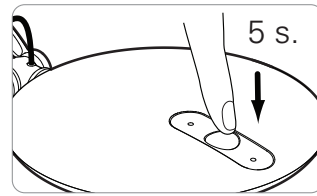

Element Disc inclut un détecteur de présence qui éteint automatiquement l'appareil quand il ne détecte pas de mouvement dans la région immédiate pendant dix (10) minutes.

- i. Press the power button to turn on the light and the occupancy sensor. A lit power button indicates that the occupancy sensor is on.

Appuyez sur le bouton Marche / Arrêt pour allumer la lumière et le détecteur de présence. Un bouton allumé indique que le détecteur de présence fonctionne.

- ii. To turn off the occupancy sensor, press and hold the power button for approximately five (5) seconds until the light flashes.

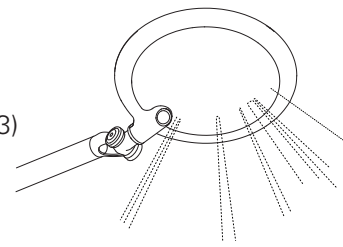

Pour désactiver le détecteur de présence, appuyez le bouton Marche / Arrêt pendant environ cinq (5) secondes, jusqu'à ce qu'il clignote.

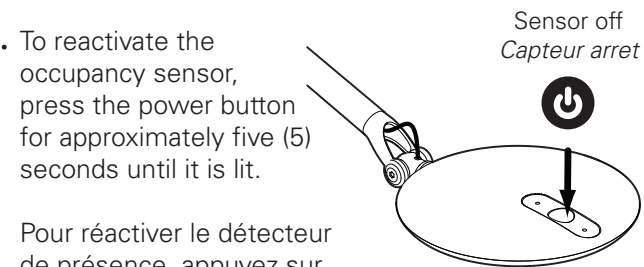

- iii. The light will flash three (3) times to indicate that the occupancy sensor has been turned off. An unlit power button indicates that the occupancy sensor is off.

La lumière clignote trois (3) fois pour indiquer que le détecteur de présence a été désactivé. Un bouton Marche / Arrêt éteint indique que le détecteur de présence est éteint

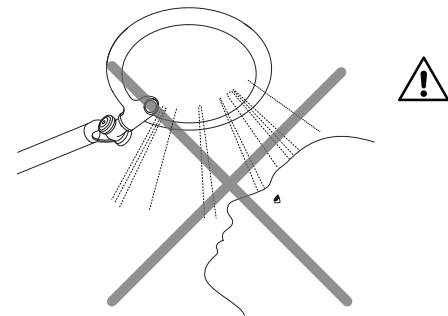

- iv. To reactivate the occupancy sensor, press the power button for approximately five (5) seconds until it is lit.

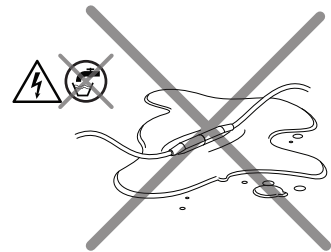

Pour réactiver le détecteur de présence, appuyez sur le bouton Marche / Arrêt pendant environ cinq (5) secondes jusqu'à ce qu'il soit allumé
