

Reply  
seating

Steelcase

## A global family of seating.

Work happens in many places. Choices for seating are abundant with Reply® — a complete global family of chairs that are as nice to look at as they are to sit in.

**Simple comfort.  
Transparent design.**

Comfort is no secret for Reply chairs with mesh backs. Imported from Italy, our exclusive mesh is woven with chinelle yarn offering soft, supportive comfort in an airy and light scale design. And if a classic look is what you prefer, our fully upholstered Reply chair offers dynamic support with a sleek and contoured look.

## Up to the task.

Reply is ready to take on whatever your workday brings. Simple, easy-to-use controls provide the individual comfort adjustments you need to make sitting a pleasure.

## Easily paired.

Whether it's multi-use or task seating, the global family of Reply chairs allow you to create a cohesive aesthetic in any environment.

## Multi-purpose, multi-use.

There's a Reply chair for everywhere. Roll it in for a quick discussion or a longer project meeting. Put it to work in a conference room. Or bring it out for big gatherings and events, then stack six-high when everything is over.

## Adjust simply.

Reply chair controls give you comfort right at your fingertips—the kind of comfort that makes it easy to sit for a long time, with the kind of control unexpected in a chair this reasonably priced. And Reply's high performance mechanism provides the adjustments you need for long-term comfort.

**Handle** on Reply fosters mobility by giving you a convenient handhold to move the chair where it's needed.

**Height-adjustable lumbar support** is optional on Reply mesh to enhance back support.

**Back height** adjustment on upholstered chair (not shown) allows you to raise or lower the chair back from a seated position to support your lower back.

**Seat height** adjusts quickly with a simple pull of the lever so anyone can sit comfortably.

**Tilt tension** adjustment allows you to control the amount of resistance needed for reclining.

**Armrests** pivot and slide to support your arms properly even when you change position.

**Arm height** adjusts easily to keep your arms in proper alignment for any task.

**Multi-position back lock** allows you to lock the backrest in multiple positions.

**Seat depth** adjustment allows the seat to slide forward or back to accommodate different leg lengths.

## SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

### Research and insights direct our path.

It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

### Innovative products and solutions result.

In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
