

920 CPU HOLDER

PROTECTION, ADAPTABILITY, FLEXIBILITY

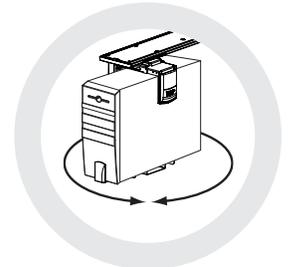

As CPU's get smaller, their safekeeping becomes more critical. Protect your computing investment with the 920 CPU Holder. Its exclusive 3 point security protection system will keep your processor safe for years. With two keyed locks and tamper resistant screws on the track you have the ultimate in protection.

No matter how current your computer may be, the 920 CPU Holder is there to support you. Its super slender 1 1/4" width takes care of today's slim form factor units and can expand to accommodate mini towers. For added flexibility, select from four versions and three mounting options. The track mounted version provides full 360° swivel for easy access to cables and cords. And if your needs change, an upgrade lock kit is at the ready.

Our focus on the future extends to environmental considerations. The responsible design uses 30% less materials, reducing pressure on natural resources for manufacturing, shipping and disposal. The materials used are chosen both for their recycled content and easy recyclability.

Accommodates the widest range of CPU sizes, from 9 3/4" x 1 1/4" x 8" to 18 1/2" x 8 3/4" x 19 1/4"

360° swivel on track mounting for easy access to back of CPU

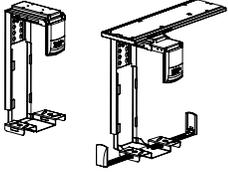

3 point locking system to protect hardware and data investment

920 CPU Holder ergonomic accessories

Products listed on this page are available through GSA Contract GSA-28F-0030S SIN #711-2 (Schedule 71)

920 CPU Holder

- Stylish, modular design accommodates modern CPU sizes from 9¾" to 18½" high, 1¼" to 8¾" wide, 8" to 19¼" deep
- Height range adjusts in ¾" increments
- Non-Locking versions have no depth limitations and do not have bottom brackets
- Locking version includes adjustable bottom bracket, two keyed locks and tamper resistant screws for track mount
- 16" nylon track allows 10" travel & 360° swivel for easy access to rear of CPU and under-desk storage
- Security lock kit retrofit option available
- Multiple mounting options include fixed wall mount, fixed under desk mount and track mount
- Supports CPUs up to 75 lbs.
- Sturdy steel construction
- Uses 30% less material than comparable products
- Product is minimum 96% recyclable at end of life and easy to disassemble
- Plastic components made from ♻️ fully recyclable plastic
- Lifetime warranty
