DISCOUNTED CHAIRS

UPLIFT Sit-Stand Stool

The UPLIFT Motion Stool allows you to move freely in any direction to harness the benefits of an active workday. Tilting the stool forward and perching at your height-adjustable desk promotes the optimal open hip angle, keeping you comfortable when you want a break from standing. The weighted convex base provides excellent stability for a full range of motion, and features a treaded rubber molding to keep the stool firmly in place. A padded, breathable fabric seat with waterfall edge reduces pressure points, and a generous 10" height range makes this standing chair a good choice for both petite and tall users.

Features

- Fully adjustable sit-stand chair with 10" of height adjustment via easy-push buttons that are evenly placed around the underside of the seat
- Encourages a full range of motion, from active sitting to perching at your height-adjustable desk
- Weighted base with center-of-gravity stability supports a range of postures and movement
- Round, padded seat cushion with waterfall edge alleviates pressure, allows maximum flexibility, and promotes circulation. There's a reason most stool seats are round
- Gas spring used to raise and lower the seat is covered with a silver epoxy powder coating
- Black shell body is a molded polypropylene material
- Self-balancing stool returns to upright position after use. The base of the stool is counter weighted heavily
- Base is covered with a treaded semi-soft elastomer that grips floor surfaces. However, do not use this stool on wet or slippery floors as the base can slide out if the stool is tilted and there isn't sufficient friction with the floor

Dimensions	23.5" - 33.5" H x 13" W
Height adjustment	23.5" - 33.5" H
Weight capacity	300 lbs
Leg pivot	360°
Weight	23 lbs
Warranty	7 years

UPLIFT DESK®

DISCOUNTED CHAIRS

E7 Stool by UPLIFT Desk

Switching up postures throughout the day is one of the keys to staying healthy while you work. With the E7 Stool by UPLIFT Desk, this is easy. Start by gently leaning into the chair for a classic perching posture, or lower the stool to fully sit on it. As your workstation adjusts throughout the workday, so do you and the E7. Adjust in seconds via a height adjustment release located under the seat.

Ideal for use as a side seat or complementary seating option to your usual office chair, you can have an ergo-friendly stool that allows you to tilt, rotate, and pivot your way to more active seating. 360 degree rotation is ideal for getting the best view and maintaining eye contact at collaborative meetings, and with the option to sit and perch at your sit-stand desk, you'll have all of the seating options at your fingertips (or behind).

Work better with a little help from the E7 Stool by UPLIFT Desk.

Features

- Stool encourages users to sit and perch in comfortable ergo-friendly postures
- Multiple modes of adjustability like 360 degree rotating, tilting, and pivoting
- Ideal for use as a part-time seat or complementary seat to office chairs
- Handle on the back for easy portability around the office
- Stable, weighted base keeps the stool upright
- Seat features soft, breathable, stain-resistant fabric
- Available in black

UPLIFT Pursuit Chair

The UPLIFT Pursuit Mesh Chair with Headrest is a full-featured ergonomic chair at a great low price. The mesh back and headrest conform to your body and allow airflow to keep you cool and comfortable, while the upholstered seat offers more support than a mesh seat can. Packed with features found on high-end chairs, like height adjustable arms, a waterfall seat edge, adjustable lumbar support depth, and a synchro-tilt mechanism, the UPLIFT Pursuit Ergonomic Chair proves that you don't have to settle for less while looking for an affordable chair.

Features

- Pneumatic height adjustment with 360 degree swivel
- Tilt tension control for rocking
- Knee tilt with tension control
- Height adjustable arms
- Synchro-tilt mechanism adjusts seat and back in tandem
- Back angle adjustment with tension control
- Three recline lock positions

Dimensions	27.25" W x 27" D x 46-42.5" H
Seat dimensions	18.5" W x 21" D
Back Dimensions	22.5" W x 25" H
Seat Height	17.75 - 21"
Weight Capacity	250 lbs

J3 Ergonomic Chair by UPLIFT Desk

When you want high-end ergonomic features in a chair at a fraction of the price of most ergonomic desk chairs, the J3 Ergonomic Chair by UPLIFT Desk is here for you. With this chair, you'll get it all with adjustable seat height, seat depth, armrests, and headrest, allowing you to personalize your sitting experience with just a few quick modifications.

Is back pain keeping you from coming up with a good idea or completing a task? Well, that won't happen with the J3 thanks to the chair's reliable lumbar support that cradles your back where you need it. Factor in a breathable mesh back, and you'll be sitting much more comfortably than you're used to, at a price that fits your budget. This mesh chair's leather seat is soft yet durable, giving you a more comfortable home base.

Features

- Contemporary chair design fits a variety of body types
- Adjustable height, seat depth, armrests, and headrest position.
- Mesh back for better airflow to the back
- Slightly contoured leather seat
- Supportive lumbar support
- Comes with casters
- Available in black

Steelcase Amia

The Steelcase Amia features a simple yet highly effective design, offering the same comfort and support as Steelcase's higher-end ergonomic chairs at a lower price point. Adjustable LiveLumbar keeps your lower back healthy and comfortable, flexing with you as you shift positions. Back tension is easily adjustable, allowing you to customize the recline resistance. Intuitive seat depth adjustment makes it easy to set the chair to your proportions, whether you're petite or tall, and the waterfall seat edge prevents pressure from building behind your knees. Arms are height, width, and angle adjustable.

Features

- LiveLumbar encourages correct posture and combats lower back pain
- Adjustable back tension makes it easy to adjust the resistance you feel as you recline
- Adjustable lumbar support pad
- Adjustable seat depth
- Fully adjustable arms

Seat Height	16" to 21"
Seat Depth	15.5" to 18.5"
Seat Width	19.25"
Lumbar Height	6.25" to 10"
Arm Height from Seat	7.25" to 11.25"
Distance between Armrests	13" to 19.5"
Armcap Pivot Range	30°
Armcap Depth	2"

Steelcase Think

The Steelcase Think chair is a streamlined, intelligently-designed chair offering dual-energy lumbar support and an intuitive back that molds itself to your body for a custom fit. Linked flexors in the back move with you as you adjust your position, and the seat cushion features adaptive bolstering technology that provides full support without restricting movement. A weight-activated synchro-tilt mechanism and adjustable tension controls maintain an optimal seat/back ratio during recline, and fully adjustable arms ensure the perfect positioning.

Features

- Linked flexor system automatically adjusts as you move
- Cored pockets in the seat foam create a custom “comfort pocket”
- Synchronized tilt function ensures optimal seat and back recline ratio
- Flexible seat edge alleviates pressure on the legs and promotes better blood flow
- Adjustable lumbar support
- Adjustable seat depth
- Fully adjustable arms

Overall Depth	22” to 24.25”
Overall Width	28.5”
Overall Height	37.25” to 42”

Steelcase Leap

The award-winning Steelcase Leap, one of the most popular ergonomic chairs on the market, provides superior comfort, intuitive adjustment, and timeless style. LiveBack technology means the chair moves with you, providing total back support, and the adjustable lumbar pad, wide back, and cushioned seat keep your entire body comfortable and supported. Seat depth, back tension and firmness, natural seat glide, and fully-adjustable arms round out the many features of this perennial favorite.

Features

- Responsive LiveBack technology flexes as you move to provide constant back support
- Adjustable back tension makes it easy to adjust the resistance you feel as you recline
- Lower back firmness adjustment supports your lower back and helps prevent hunching
- Synchronized tilt function ensures optimal seat and back recline ratio
- Flexible seat edge alleviates pressure on the legs and promotes improved blood flow
- Adjustable lumbar support
- Adjustable seat depth
- Fully adjustable arms

Steelcase Gesture

Built to accommodate the specific postures we use with mobile devices, the Steelcase Gesture features 360° arms with unparalleled range of motion. Whether you're using a keyboard, laptop, tablet, or mobile phone, the Gesture will conform to your position and keep you supported in total ergonomic comfort. Additional features include a core-equalizing system that automatically adjusts lumbar support, a variable back-stop system for tension-adjustable recline, and a flexible seat with slider.

Features

- 360° arms offer a huge range of arm adjustment with the push of a button
- 3D LiveBack technology allows the seat back to conform to your posture changes
- Unique core equalizer system automatically adjusts with the angle of the seat and back
- Variable back stop can be adjusted to give more or less recline range
- Passive front seat edge flexes to minimize pressure against the thighs and knee joint
