

CHAMELEON KEYBOARD TRAY series

The Chameleon Keyboard Tray Series offers the ultimate in ergonomic design and function for all desking requirements.

Ergonomic

- Retracts 1" from the desk surface on a 19" track
- 1/2" thick platform allows hardware to be recessed creating a low profile design
- Built in tilt and height range indicators make it easy to adjust the keyboard to the same position each time for consistent ergonomic positioning
- Keyboard tray adjusts from 10 degrees positive to 15 degrees negative
- Standard and RollerMouse™ arm will adjust 2.25" above the track to 6.13" below the track

Adaptable

- Mouse over, under or neutral
- Mouse can be moved to left or right side of keyboard tray without the use of tools

Responsible

- Made from 100% post consumer waste and is 100% recyclable
- Materials are recycled, extruded, cut and shipped from the same factory
- Proudly Union or U.S. made

Built in height and tilt gauges allow evaluators to set and record position.

Mouse articulates independently from the platform to allow a neutral wrist position.

Hardware is recessed into the platform for a low profile design.

5 Year Warranty
