

Ergonomists love it.  
Designers too.

tcentric  
hybrid™

ergoCentric®

Finally.  
You can have it all.

Created by award-winning industrial designer Miles Keller, the tCentric Hybrid™ is the perfect fusion between aesthetics and the highest ergonomic standards.

Perfect for any office.

The tCentric Hybrid's minimalist design and available ergonomic options let it transform from a stylish chair that enhances any office setting, to a fully ergonomic chair for the most demanding users.

### Adjustable headrest\* ( optional )

Using three pivot points and providing 7" of vertical and horizontal adjustments, ergoCentric's patented design provides the ultimate in adjustability.

### Supportive, sculpted frame and profile

## Feel the difference.

Relative to the leading mesh office chair, the tCentric Hybrid is designed to maximize employees' comfort and safety without compromising on style.

Designed to hug the user's back, the entire tCentric Hybrid's dual curve backrest adjusts vertically, ensuring the lumbar support remains in alignment with the frame's lumbar curve, resulting in optimal support and comfort.

### Unique center column design

### Lumbar pad or Air Lumbar System ( optional )

Alleviates stress on the lower back muscles.

### Adjustable arms

Swivel, pivoting and adjustable arm options have width adjustment and arm height adjustment.

### Dynamic seat

Six seat size options provide a comfortable fit for a variety of users.

### 5" of infinite back height adjustment\*

### Easy to adjust

Geometric shaped adjustment paddles\* help users recognize an option by simply feeling the paddle's shape.

\* Patented technology and available exclusively from ergoCentric.

## Please be seated

Beautiful and stylish, the tCentric Hybrid is the **highest quality ergonomic task chair available.**

The tCentric Hybrid is available with a Synchro Glide, Multi Tilt, Accent, Boardroom or Dedicated Task<sup>†</sup> mechanism.

Breathable elastomeric mesh, multiple mechanisms and available ergonomic options makes the tCentric Hybrid ideal for dedicated, shared and boardroom office spaces.

<sup>†</sup> Only available on counter height chair.

Our sole mission:

To design and manufacture the best ergonomic chairs in the world.

The human body was not made for sitting. Lack of proper support while seated adds stress to the body, which over time, can lead to muscle fatigue, circulatory problems and even spinal injuries.

A proper ergonomic chair provides the support essential to your health and the comfort you need to be the most productive.

Working closely with ergonomists and healthcare practitioners to continuously improve and refine our chair designs, ergoCentric can accommodate 100% of your diverse workforce.
