

MEET PIVOT

Your world is about to be turned around.

The Pivot Seat is a minimalist task seat with serious ergo-sensibilities. Unlike most chairs that feebly acquiesce as your posture deteriorates into a sluggish slump, the Pivot Seat keeps you active.

The Pivot Seat's weighted base is built with CG Stability, so it responds to every move you make. The seat's Rubber Octogrip Overmold provides just enough friction so you have full freedom of motion. It encourages you to twist, turn, swivel and even pivot with ease. Pivot's sleek seat is positioned forward, so that you find your natural equilibrium, engaging your core and mastering perfect posture. What's more, Pivot easily lifts and lowers, empowering you to take a range of healthy postures from active sitting to leaning.

The Pivot Seat is playfully designed. It isn't concerned with expectations. In fact, it flat out rejects most notions of what a seat "should" be. Instead, it was created to work with you, work for you, so you can bring more play to your day. Imagine what you can do when you Pivot while you work.

FEATURES

1. The weighted base leverages your center of gravity to support various degrees of use, so you can rock (and not roll)
2. Rubber Octogrip Overmold enables you to enjoy a full range of motion while maintaining control
3. Pivoting seat leg empowers you to move 360 degrees
4. Seat pan is cantilevered forward to promote the optimal open hip angle
5. Easy-adjust piston-release handles lift and lower the seat, encouraging a range of postures from active sitting to leaning
6. Tri-Flex Seat Cushion has built-in sitz bone contours for plush support and a waterfall edge to reduce pressure on the upper legs and promote healthy circulation
