

Quadropod

LCD Mounts

Mount multiple flat panel monitors in any position you desire. Our articulating gas arms provide complete freedom of motion. Position each monitor independently of the other, and quickly adjust pivot and placement as your needs change.

The Quadropod saves valuable desk space by mounting the monitors to a single pole. Combine with an Innovative slatwall or slatrail mount to completely free desk space.

Set arm height at any desired position along the included pole. The Quadropod can be configured for one user with multiple monitors, or can even serve multiple users working opposite one another.

FEATURES

- ▲ Adjust base height of monitors on pole in 1" increments
- ▲ Each arm has 24" of horizontal range
- ▲ Each arm has 16" of vertical range (8" up and down from horizontal)
- ▲ Each arm rotates 360 degrees at three joints
- ▲ Monitor tilter mechanisms tilt over 200 degrees
- ▲ 28" pole height
- ▲ Includes our extended FLEXmount™ with six mounting options, or combine with optional slatwall or slatrail mount

Adjust height of mounts in 1" increments

Position monitors independently
