just right**

Knoll

Introducing the Chadwick chair,
designed by Don Chadwick for Knoll.

Drawing upon 30 years experience
in designing award-winning furniture,
Don Chadwick has created a chair
that is refreshingly simple.

Every detail makes sense. From its
streamlined, athletic appearance to its
smart engineering and use of innovative
materials, Chadwick is the office chair
refined — and redefined.

One chair. Multiple functions. Perfect for
working, meeting or training. Chadwick
is a new definition in affordable seating.

smart

Chadwick is designed to anticipate and respond to your body's movements with energizing comfort features.

The chair sports a number of exclusive built-in essentials to enhance your work experience, including Active Suspension™.

Active Suspension couples a unique synchronized recline with a proprietary suspension fabric. Chadwick also includes a built-in forward tilt and an ample lumbar curvature.

The result? Chadwick takes its cue from you, providing a supportive ride that allows you to navigate comfortably around your workspace all day long.

comfortable

Chadwick is anything but complicated.

Straightforward adjustment controls, including seat height and tension knob, are within easy reach, allowing you to customize your chair perfectly.

And the optional tilt stop, adjustable arms and lumbar support let you refine your posture to accommodate a wide variety of tasks.

easy

accessible

Chadwick is a chair created for everyone, offering design that is both smart and affordable.

The style and scale are suitable for virtually any office or collaborative space in a range of neutrals in warm to cool hues.

just right

The right designer. The right aesthetics.
The right features. The right scale. The
right price.

Chadwick strikes the perfect balance
of simplicity and innovation that's just
right for you.

Chadwick™

Chadwick is the office chair refined — and redefined.

Smart

Chadwick blends smart design with refreshing simplicity.

Comfortable

Energizing and supportive, Chadwick provides all-day comfort.

Easy

Straightforward adjustments allow you to change positions instantly.

Accessible

Uncomplicated style and suitable scale at an affordable price.

Just right.

The right designer. The right aesthetics. The right features. The right scale. The right price.
