

Life[®]

Product Information

Light. Intuitive. Flexible. Environmental.

The graceful curves, slim silhouette and smooth, responsive movement of the Life chair set the standard for sophisticated design and effortless ergonomics. Life is beautiful, comfortable and environmental — it is durable, recyclable and efficient in its use of materials.

Designed with its life cycle in mind, Life comes with a 10 year, 7 days a week, multi-shift use warranty. Its parts are easily replaced, making the chair easy to update while reducing waste.

Designed by Formway Design for Knoll

Manufacturing

Life is manufactured in our LEED[®] Gold and ISO 14001 certified Lubin Manufacturing Facility using clean technology:

- No ozone-destroying chlorofluorocarbons (CFCs)
- Metal powder coating processes are 99% VOC-free
- Adhesive processes (water based or hot melt) are 99% VOC-free
- Returnable packaging is used for chair component parts
- 100% of electricity used at the site is offset by wind energy

Life and SMaRT[®]

Rated Sustainable Gold by the SMaRT[®] Sustainable Product Standard, Life was the first product in the furniture industry to be SMaRT[®] certified. SMaRT[®] is a comprehensive, transparent, sustainable product standard that measures a product's environmental, economic and social benefits over its life cycle and throughout its global supply chain, from raw materials extraction through reclamation or re-use.

Life and GREENGUARD[®]

Life is GREENGUARD Indoor Air Quality Certified[®] and GREENGUARD for Children & SchoolsSM certified.

Life and LEED[®]

Life can contribute to achieving LEED[®] credits for Commercial Interiors, New Construction and Existing Buildings.

Efficient Use of Materials

Constructed using minimal materials

SMaRT[®]

SMaRT[®] Sustainable Gold certified

GREENGUARD[®]

GREENGUARD Indoor Air Quality Certified[®] and GREENGUARD for Children & SchoolsSM certified

Recycled Content

Constructed with 55% (plastic base) to 60% (aluminum base) recycled materials

Environmental Fabrics

Available with 20+ environmental fabrics from KnollTextiles, which are GREENGUARD Indoor Air Quality Certified[®]

Recyclable Content

58% (plastic base) to 70% (aluminum base) of parts are readily recyclable

Structural Components

Cast, burnished aluminum frame requires no coating, minimizing materials and eliminating Volatile Organic Compounds (VOCs)
