Comfort Mat for Motion-X or Rocker-X Boards
ACC038-9MM

## Package Contents

Comfort Mat

Adhesive Tape

Assembly Instructions

The Comfort Mat can be used in two ways with your Motion-X or Rocker-X Boards. Applied to the top surface, it provides comfort when using the board with bare feet or socks. Placed below the board, it protects floors from potential scuffs and scratching from the plastic base.
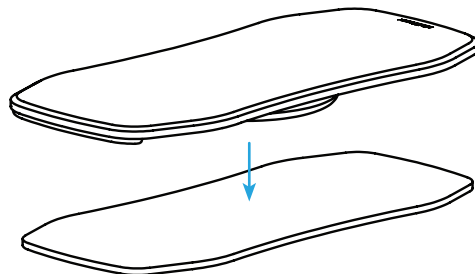

Use as Comfort Mat

A. Peel backing off of one side of Adhesive Tape.

B. Stick the tape to the top of the Motion-X or Rocker-X Board in the center.

C. Peel the backing off of the exposed side of the tape.

D. Center the Comfort Mat over the top of the board and press firmly where the tape is.

Use as Floor Protection

A. Set Adhesive Tape aside. We recommend keeping it in case you decide to use the Comfort Mat on top of the Motion-X or Rocker-X board later.

B. Place the mat on the floor where you plan to use the board. Then place the board on top of the mat.

C. If you move the board out of the way, you can stand on the mat for a bit of additional comfort with bare feet or socks.

Safety and Warnings

CAUTION: Read all instructions before assembly. Failure to assemble or operate properly may result in damage or personal injury. Retain manual for future reference.

Under no circumstances does the manufacturer accept warranty or liability claims for damages caused from improper use of this product. Please provide these instructions to any new user or owner of the product.
