Desk Organizer Set

by UPLIFT DESK®

Organize your space with a coordinating desk set in the color that makes your heart skip a beat.

Put papers in the paper tray, store mail and notes in the medium box, and keep track of your memos in the small box. Keep your deets displayed in the business card holder. Fill the dual compartment pen holder with a few blue gel pens (six are included).

The matching set comes in the color of your choice, and is ready to add a few pops of color to your (newly) clean and coordinated desk.

Say yes to effortless and inspiring desk organization.
