

UPLIFT DESK[®] Crafting Table Top TOP314

Package Contents

Craft Table Top

Step 1

Open your box and dispense of its cardboard and packaging. Take a moment to put some masking tape on the drawers and lids, so they stay closed while moving, flipping over, and assembling your desk.

If you do not use tape, loose drawers and lids may open suddenly, possibly damaging the table or causing injury.

NOTE

Masking tape or Painter's tape should be strong enough to keep drawers and hatches closed, while also being gentle enough to not damage or gum up your Craft Tabletop's wood surface. **Do NOT use other types of tape, such as Scotch or Duct tape.**

Step 2

Place some towels or a blanket on the floor to protect the Table. Have a friend or two help you place the Table upside down on the blanket, so that the screw holes are facing up.

Step 3

Get ready to attach the desk frame to the Table. Make sure the frame is assembled as per its instructions before you begin. Line up your desk's frame with the pre-drilled holes with threaded inserts on the Table, and attach using the #10-24x5/8" Machine Screws that came with the frame.

If you have further questions regarding assembly of your UPLIFT Desk frame, refer to those instructions.

Step 4

Once the Table is secured to the frame, grab your friend to help you flip it over safely. Grasp the desk frame and desktop, being careful to support both equally, so you do not stress the screws or pull them loose.

Now, flip the Table over. Adjust the leveling studs on the feet to ensure that it is level.

Once it is right-side up, carefully remove the masking tape.

Compatible with other UPLIFT Desks

The pre-drilled holes on this Table will also work with the frame components of the UPLIFT Desk 4-leg Side Table and T-Frame Desks

CAUTIONS & WARNINGS

- CAUTION:** Read all instructions before assembly. Failure to assemble properly may result in damage or personal injury.
- WARNING:** Exercise caution with the table's hinged lids as they can slam shut and cause injury.
