Footnote explanations and photos of the chairs can be found on Page 2.

# Footnote Explanations

## 1. Adjustable Arms

Height (H), Width (W), Depth (D) and Pivot (P).

#### 2. Lower Back Firmness Control

Enables users to set a constant amount of firmness to maintain their lower back's natural.

### 3. Variable Back Stop

Allows the user to lock the backrest in an upright position or set the backrest to stop in a desired reclined position.

#### 4. LiveBack

Mimic's the user's unique spinal motion and literally morphs to fit the user's spine as it changes shape throughout the day.

#### 5. LiveSeat

Provides a dynamic comfort pocket that can adapt to the user as they change postures.

# **Chair Photos**

#### 6. Natural Glide

Allows users to recline without leaving their "vision and reach zone" so they are oriented to their work.

#### 7. Cradle to Cradle™ Certification

An important sustainability benchmark for all manufactured products. Introduced in 2005 by McDonough Braungart Design Chemistry (MBDC), Cradle to Cradle design protocol outlines environmentallyintelligent design criteria, which is the basis for Cradle to Cradle product certifications.

### 8. SCS Indoor Advantage Certified

Help clients to identify low emitting products. It can also help customers seek LEED certification for their building by supporting the low-emitting materials LEED CI criteria.
