

Criterion

Fully adjustable for long-term comfort.

Designed from the base up to fit the broadest range of body types, tasks and personal preferences, the Criterion® chair suits your work style perfectly. The seven independent adjustments offer support through the full range of dynamic seating postures: upright, reclined and forward. Six million people around the globe can't be wrong: this chair supports you unconditionally.

Criterion is comfortable being environmentally responsible.

- 16% recycled content, 6% from post-consumer material
- Lower impact, VOC free manufacturing
- 84% recyclable, depending upon options selected
- Engineered for a long service life and backed by the Steelcase Limited Lifetime Warranty
- SCS Indoor Advantage certification for indoor air quality

Ergonomic Features

1 Criterion's soft curves and pleasing contours provide all-day comfort and support.

Adjustable features include variable back stop, tilt tension, adjustable arms, seat angle, seat height, back height and optional seat depth.

Stool

4 Criterion's mid- and high-back stools provide support and comfort for healthcare, laboratory or any standing-height worksurface application.

Arm Options

2 The Criterion chair arms are fully adjustable for maximum fit, comfort and support.

Arm options include height-, width- and pivot-adjustable; height- and width-adjustable; height-adjustable; fixed height and armless.

Durability

3 Criterion's solid construction provides support for the most demanding work environments. It's also available in molded or sewn vinyl (shown), which means spills, marks and messes clean up easily.

Criterion Plus

5 Features a 20% larger seat and back, added back support, higher density foam, reinforced frame and high-pressure pneumatics to meet the needs of larger users, up to 500 pounds.
