

Siento™

The Siento chair is about making you feel good (its name even means, "I feel"). Designed to be ergonomically intuitive, Siento moves as you move.

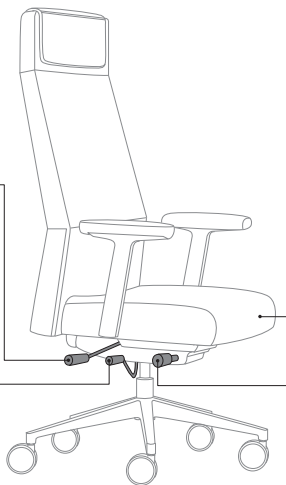

- Patented LiveBack™ seating technology flexes with you, to fully support the different areas of your back.
- Adjustable back tension control allows you to customize the amount of resistance you experience as you recline.
- Flexible seat edge relieves pressure on the back of the legs as you recline or lean forward.
- Environmental considerations include a complete Life Cycle Assessment, and a materials analysis by leading environmental consultants, MBDC, to analyze materials used in the chair for safety to environmental and human health.
- Made of up to 28% recycled content and 91% recyclable.
- Designed in collaboration with architect and product designer, Jorge Pensi.

Upright back lock

To lock the chair's backrest in the upright position, push the lever forward. To unlock the backrest and allow the chair to recline, push the lever backward.

Seat height

To raise the chair, lift your body weight and hold lever up. To lower the chair, remain seated and hold lever up. Adjust your seat height so your feet rest flat on the floor.

Flexible seat edge

The front edge of the seat automatically flexes as you recline or lean forward.

Back tension

To increase resistance as you recline, turn knob forward. To decrease resistance as you recline, turn knob backward. Adjust your back tension so you can recline easily.
