### Respect for the environment:

Using environmentally friendly materials and methods is a major priority for Variér®. We also attach importance to ensuring that the production methods are environmentally friendly.

### Materials:

We use wood from farmed sources harvested using principles of sustainability. All the beech and oak we use comes from Europe. The walnut comes from North America.

### Fabrics and leathers:

We offer fabrics of high wear resistance and classic appearance supplied by acclaimed European specialists (Kvadrat, Innvik, Gabriel) in more than 200 colours. We offer high quality semi-aniline leathers from European leather merchants applying eco-friendly production methods when developing raw hide into furnishings.

**Cushion:** Polyurethane foam.

### Guarantee 7 years/5 years

Variér® offers an extended 7 years guarantee on all wooden parts and 5 years on mechanical parts to customers who register their products in our product database. Variér's guarantee only covers manufacturing defects and does not include misuse, normal wear and tear and defects caused by exposure to sunlight. The guarantee will not apply if the customer fails to tighten screws as recommended and this results in damage to the piece of furniture.

VARIÉR®  
INTELLIGENT SITTING

We are created  
to move not  
to sit still

This also reflects our sitting philosophy. We have always focused on developing chairs that by letting you move provide well-being. When you move, you feel good. Both physically and mentally. As long as your body has a choice, it will choose movement over inactivity. Also when sitting.

That's why we have made it our mission to develop chairs based on the movement philosophy. These unique sitting solutions encourage dynamic and active sitting positions, which in turn provide maximum comfort and well-being while seated.

## THATSIT™ balans®

When you sit on a Thatsit™ balans® you'll use the wooden runners to distribute your body weight. This automatically straightens up and balances the spine properly over the pelvis. Using the shape of the runners the body weight will regulate the position of the chair and the knee pads will prevent the body from sliding forwards. This balans® concept was developed by designer Peter Opsvik and Hans Chr. Mengshol.

### Movement and variation.

Thatsit™ balans® offers a variety of different sitting positions to move between. All of the positions are stressfree for the body.

The runners follow the movements of the body and encourage active sitting positions. The body will find its own natural balance. Stimulates to dynamical and active sitting positions.

Back rest can also be used as support for the chest when sitting the other way around.

The runners also function as support for the feet.

Thatsit™ balans® is based on the original concept of Variable™. By adding an adjustable backrest Thatsit is a versatile chair that can be used in an office/studio or living room. Thatsit is ideal for people who have to sit for long periods of time either at home or work. Perfect for all kinds of work, which is to be done at a table.

Available with or without back rest gives freedom to choose according to personal needs.

Optional backrest – adjustable in height and depth.

Gives support for arms. Can be supplied and assembled later.

Height adjustable leg cushion The leg cushion is adjustable for tall/small people.

WITH A PERFECTLY BALANCED SPINE YOU'LL BE ABLE  
TO BREATHE MORE FREELY AND CONCENTRATE FOR LONGER.
